

BCOG 100

The Evolution of Neurons

Lecture 3: From Neurons to Brains and Behavior

UNIVERSITY OF
ILLINOIS
URBANA-CHAMPAIGN

Reading Check 4-3

Password: potential

Question: How's the class going so far?

From Neurons to Brains and Behavior

Last Time

- Why animals evolved neurons, and what they could do with them

Today

- Neural nets to neural circuits
- Radial vs. bilateral body plans
- Steering and simple brains
- Valence & internal states
- Neurotransmitters in behavior
